

UO Proposed Program

Green Materials Chemistry

Aligns with Oregon's industrial sectors

Proposed Center investments synergistic with

- Graduate Internship Program growth
- New undergraduate program - SMART
- Increased Research funding
- Increased interactions with industry partners
- Growth of regional partnerships

Aligned with ETIC goals of

- Nationally recognized Center of Excellence
- Continual growth of enrollment - exceeding 2x
- Continual growth of research funding - exceeding 5x

Proposed Investments

- Expand research and teaching infrastructure
9.6M
- Green Chemistry Infrastructure
1.6M
- Undergraduate program - SMART
1.4M
- Growing capacity - faculty start-ups
4.0M
- Matching funds for federal and private grants
2.0M
