

## **College Student Survey**

- 1. What is your class standing?**  
Freshman   Sophomore   Junior   Senior
- 2. What is your major?**
- 3. Who or what was most influential in your choice of major?**
- 4. Do you see your choice of major as naturally leading to a particular career? If so,**
  - a. What is attractive about this career?**
  - b. What concerns do you have about that career?**
- 5. Have you had any internships which used the knowledge or skills you learned in college?**
- 6. If so, to what extent has the internship affected your college and career plans?**
- 7. If your major is not computer science, did you consider computer science before choosing your current major?**
- 8. If yes, why didn't you choose computer science? If no, was there a reason why you didn't consider computer science?**
- 9. How old were you when you were first exposed to computer programming, or computer science?**
- 10. What was that exposure?**
- 11. What is the first thing that comes to mind when you think of computer programming jobs?**
- 12. How or where did you develop that perception?**

Version 0.5 – 8/8/2006

**13. Please list any high school classes that you took on computer science or computer programming.**

**14. What computer science related class would you like to have had available in high school, but it wasn't?**
