#	Response
	2. Please share any other thoughts you have about the period before today's tournament:[Question Title]
1	More info on Peer Presentation guidelines for team.
2	Great Stuff! This is how to challenge these "techie kids" IT makes being smart "cool". The Chemeketa campus is a good venue. We need more ways to challenge & grow engineers.
3	Having the competition so late in teh school year made getting students to follow through on their commitments for the team. Year end pressures, especially for seniors, made finding productive team members difficult.
4	It would have been helpful to know more detail about the platforms and network restrictions (e.g. write permissions) prior to arriving. Otherwise, communications were helpful.
5	Like to see more time allowed to develop game. Difference between Tech Judging * Project Judging? Energy theme may not have been the kids' first choice but was very worthy.
6	see Bat Boys (253) survey
7	Some of the requirements for the day were unclear. Telling the students what is required for each judging session would have helped. SOMETimes students didn'tknow what they were supposed to be doing for each session.
8	I wish my team wasn't all seniors. We'd do a lot better next year with this experience under our belts.
9	Great first year. We learned a lot form our first competition and we look forward to being here next year.
10	would like to see scoring rubrics prior to competition
